## Printing Instructions

This document has been created so that you can print each page double-sided. **DO NOT INCLUDE THIS PAGE WHEN YOU ARE PRINTING THE DOCUMENT.** You should print one page at a time. For example, first print the page that has the Visualize section on the left and the title of the Learning Log on the right by going to "File" then "Print." This should bring up the Print Window. Once there select, "Current Page" and the amount of pages you want to print. Once those pages print, replace them inside your printer so that the next page (Quick Write/Readjust Your Prediction) can print on the back of it. Repeat the process with the remaining pages. Once all the pages are printed out, align them together so that you start with the title page in the front and each page number going in order. Then place a staple in the middle of the learning log and it should now be ready to use with your students. If you still have any questions, please email me at [msanchez7@dadeschools.net](mailto:msanchez7@dadeschools.net).

**Visualize**

**Draw your favorite part of the story. Then write a sentence explaining the part and why it is your favorite.**
